There are many Community Service Projects available to work on. They include Give the Kids the World Wish Pillows, Walker Bags, and Anti-Ouch Pouches.

This year's National Community Service Project is to make pillowcases for the Ronald McDonald House. Members have already started making them and there will be kits available for those who choose to sew them together. You can also work on other UFO's.

You will need to bring your sewing machines or sergers and the usual sewing supplies.
